ABOUT ME

I'm 27 year old Danish guy that has been working with UI/UX Design, Web Development, Graphic Design & Media Production for the biggest part of my professional life. I'm very passionate about providing value via user-centered design that can catch attention, encourage to action and send happy users in the right direction. I enjoy international environments and meeting new people is always exciting to me. I have a very positive attitude towards work and not afraid of getting results on the table. I enjoy learning something new when needed. I hope you will give me a chance to show my skills, and hopefully we will make a great product and have a long-lasting relationship.

Letter of reference

Mr. Mads Schou Jensen, born on 16th of September 1988, has been employed as UI/UX Designer at Rosarico AG in Zürich, since 3. January 2014 Rosarico offers high-end made to measure suits and shirts as well as accessories through own stores and a network of distribution partners.

Mr. Jensen has mainly been leading the UI-design, Graphic-design, Web-development, Media-production and User-experience of Rosarico AG.

His main responsibilities were the following:

- **UI/UX Design** Developing the User Interface and User Experience of stock11.ch and it's communication channels. Designing the UI/UX of an interactive online shirt configurator and prototyping with Invision. Creation of corporate identity and corporate design. Support of the management in developing a brand identity and visualization of ideas from brainstorming sessions. Creating wireframes with Axure of digital products as a base for deciding on what features to implement. Creating interface of digital forms with goal to automate and optimize business processes. Coordinating usability testing, A/B testing and ongoing experience improvements of the website & internal processes.
- **Web Development** Managing outsourcing of Magento web development tasks. Developing website and tablet forms with HTML, CSS, JavaScript, jQuery, Bootstrap, AngularJS & JSON.
- **Graphic Design** Creating graphic designs for the majority of all digital and physical material with Adobe Creative Suite. Including making of visual content for website: photography, animations & video.

Besides he also supported the Marketing department in:

- Product management for e-commerce
- Management of online shop
- Various management support task
- Client communication in English & German

Throughout his entire work, Mr. Jensen proved to be a diligent employee who was very interested in the company's activities and knew how to successfully and rapidly apply the knowledge required to his work. Mr. Jensen is very creative, has good judgment skills and could always make well-reasoned suggestions in relation to his work.

Even in difficult conditions, Mr. Jensen was always able to cope with the high workload. He always showed reliability and responsibility and is much appreciated for his friendly nature and his cooperative attitude towards the supervisors and employees.

With considerable commitment and energy, he helped to build up a design, website and media production processes. His independent and responsible approach makes Mr. Jensen a great asset to the team. We were always fully satisfied with his performance.

We thank Mr. Jensen for his consistent top performance.

ROSARICO AG

Bahador Azad, Rosarico AG
CEO
Zürich, 29. Juli 2016

STOCK 11
DAS MASS ATÉLIER

Letter of reference

Mr. Mads Schou Jensen, born 16. sep 1988, from Aarhus Denmark, worked at Goblind GMBH, Zürichstrasse 102, 8700 Küsnacht ZH, as UI/UX designer from December 2014 to September 2016.

His responsibilities were the following:

- **UI/UX Design.** Development process of Interface design of the Goblind app. Leading the interface design from first sketch to the final product. Prototyping the design process with Invision to insure an early feedback process and that development is moving in the right direction. Managing the bug fixing of the UI with the Developer team. Creating all UI assets to be implemented in Android Studio & Xcode with Adobe Creative suite and Sketch 3. Making test videos of application on iOS & Android phone share across team for easy feedback.
- **Webdevelopment.** Making the goblind.org website with HTML / CSS / BOOTSTRAP / JAVASCRIPT / WORDPRESS and maintaining it. Implementing and monitoring Analytics and A/B testing tools on the website such as: [Optimizly](#), [Hotjar](#), [UXcam](#).
- **Digital advertisement material.** Creating advertisement material for the application stores. Creating explainer animation video of the project with Premiere Pro and After Effects.
- **Printed advertisement material.** Producing all print material. Brochures, flyers & business cards with Adobe creative Suite.

We see Mr. Jensen as an effective team member with a result-oriented focus. He delivers high quality design ready for implementation. He manages to follow up with development team to make sure the design is correctly implemented. With an ongoing feedback loop with Invision prototype as the blueprint for the product Mr. Jensen has managed to execute the company's vision into a real product. He is well informed and always updated with the newest trends and tools for design and technology. We are happy to have Mr. Jensen on our team and would recommend him to other companies, with an interest in developing a great user experience and design.

Mr. Jensen has been good at including the team in the design process with the help of flow charts maps and prototypes to ensure all on the team has an overview of what features are being implemented. It was easy to add adjustments and see the graphical result the next day.

Mr. Jensen has been good at implemented results from AB testing and user feedback and we now consider having a very fine-tuned product.

We got the impression Mr. Jensen is a team player that wants to get the best out of everyone on the team in an agile framework. He has been highly motivated and involved through the entire process. Mr. Jensen is loyal and reliable employee with a pride for his work.

Winterthur, 12. Juli 2016

Prüfung Goethe-Zertifikat B2 vom 22. Juni 2016

Sehr geehrter Herr Jensen

Sie haben an oben genanntem Datum die Prüfung «Goethe-Zertifikat B2» an unserem Prüfungszentrum abgelegt. Leider müssen wir Ihnen mitteilen, dass Sie eine ungenügende Punktzahl erzielt haben. Daher gilt die Prüfung als **nicht bestanden**.

Ihre Punkteergebnisse lauten im Einzelnen wie folgt:

Prüfungsteil	Punkte	
Lesen	8,0	
Hören	13,5	
Schreiben	8,0	
Schriftliche Prüfung	29,5	(Minimum: 45 Punkte)
Mündliche Prüfung	15,0	(Minimum: 15 Punkte)
Gesamtergebnis	nicht bestanden	

Die Prüfung ist bestanden, wenn mindestens 60 Punkte erzielt wurden, wovon mindestens **45 Punkte** in der schriftlichen Prüfung (**Lesen, Hören, Schreiben**) und mindestens **15 Punkte** in der mündlichen Prüfung (**Sprechen**) erreicht werden müssen.

Sie können die **gesamte Prüfung** an einem der nächsten Prüfungstermine erneut ablegen.

Informationen zu weiteren Prüfungsterminen, Anmeldefristen und Preisen finden Sie unter www.zhaw.ch/linguistik/goethe

Wir bedauern sehr, Ihnen keine positive Nachricht übermitteln zu können.

Freundliche Grüsse

NORDIC TALES

SCANDINAVIAN DESIGN TRADITIONS

Regarding Mads Schou

Mads Schou has been working as co-creative director at Nordic Tales from 06.2011-07.2013.,

Primarily developing the concepts of Nordic Tales and having side tasks like helping out at exhibitions, handling new potential clients and suppliers, handling local customer payments and deliveries, making product photography, magazin layouts and prototypes of new product designs.

Mads is a good and effective employee that generally spreads positive energy where he is. We still get help from him in stressfull periods but don't have him on regular basis since he now lives in Schwitserland.

We have been happy to have him and recommend Mads to other companies.

Best Regards, CEO, creative director, Jonas Hoejgaard.

STUDENT EVALUATION

Student: Mads Jensen
Teacher: John Butzynski Level: Advanced
Dates of Study: 3/3/09 - 4/30/09

PERFORMANCE EVALUATION

Speaks only English during program hours

3+

Participates and cooperates class

3

Is prepared for class

2

KEY

- 4 = OUTSTANDING
- 3 = VERY GOOD
- 2 = SATISFACTORY
- 1 = NEEDS IMPROVEMENT
- 0 = UNACCEPTABLE, INELIGIBLE FOR CERTIFICATE

COMMENTS:

Mads - Great having you in the class! I hope it helps you for the future (in your internet enterprise...?)

ATTENDANCE EVALUATION

HOURS/MINUTES ABSENT or TARDY

12 hrs

NOTE: More than 4 hours ineligible for certificate

Mads Schou Jensen 4/30/09
Student's signature date

[Signature] 4/30/09
Teacher's signature date

ELIGIBLE TO RECEIVE CERTIFICATE?

YES

NO

KEY TO STUDENT EVALUATIONS

SPEAKS ONLY ENGLISH DURING PROGRAM HOURS

- 4 = Often tries to start conversations in English and use new vocabulary and grammar points.
- 3 = Speaks English at all times during class and usually during break time.
- 2 = Speaks English nearly always during class; and/or sometimes uses native language during break time.
- 1 = Usually uses native language during break time, and/or sometimes uses native language during class.
- 0 = Often uses native language in class.

PARTICIPATES AND CONTRIBUTES IN CLASS

- 4 = Shows extra interest in class by asking questions and/or sharing opinions and ideas. Keeps a positive attitude during class time. Often starts conversation without waiting for the teacher to call on him or her. Is always an active, leader in pair and group work.
- 3 = Pays attention, shows interest, and sometimes starts conversations without waiting for the teacher. Is usually an active leader in group work.
- 2 = Pays attention and participates and contributes when asked to.
- 1 = Sometimes does not pay attention and/or shows lack of motivation.
- 0 = Often does not pay attention during class time. Wastes class time by not participating even when called upon and given enough time to answer.

IS PREPARED FOR CLASS

- 4 = Completes all homework. Always shows outstanding effort and attention to detail.
- 3 = Completes all homework. Some assignments are outstanding.
- 2 = Completes all homework assignments, but does only the minimum required; OR does not complete a few assignments, but some assignments are outstanding.
- 1 = Fails to complete a few homework assignments. Homework assignments usually show little effort.
- 0 = Fails to complete 20% or more of the homework assignments.

BarOn Emotional Quotient Inventory

By Reuven Bar-On, Ph.D.

Individual Summary Report

Name: Mads Schou Jensen
ID:
Age: 21
Gender: Male
Admin. Date: September 22, 2009 (Online)
Duration: 57 Minutes 43 Seconds

The information given in this report should be used as a means of generating hypotheses and as a guide to assessment. Higher standard scores are associated with greater levels of emotional intelligence and better performance. 100 represents effective emotional functioning. Scores greater than 100 represent enhanced emotional functioning, and scores of less than 100 indicate areas that may be improved. (The value -99 may appear if scores are incomputable due to missing item responses).

DIPLOM

For at have gennemført European leader for a day 2009.

Mads Schou Jensen

Mads Schou Jensen har med succes deltaget i arrangementet European Leder For a Day. Igennem en arbejdsdag har Mads Schou Jensen fulgt en leder på Copenhagen School of Entrepreneurship og på egen krop oplevet, hvad det kræver at lede en vækstvirksomhed i dag.

Under det 2 dages forløb har Mads Schou Jensen stiftet bekendtskab med takt og tone i forretningslivet, aktivt taget stilling til hvad der kræves for at være en god leder i dag, og har desuden deltaget i en netværksmiddag med fremtrædende ledere og dér øvet sine færdigheder indenfor netværksdannelse.

DIPLOMA

Emax Nordic 2008

Mads Schou Jensen

The purpose of the event is to gather the foremost young entrepreneurs in the Nordic region between the ages of 18 to 21 and to create a platform of inspiration, knowledge and network. A valuable platform for their future business life, networks and innovations.

The above person has listened to well known guest speakers and actively taken part in complicated decisions through a web based business simulator. In a competition with close to 200 entrepreneurs the above person have shown excellent results leading and organising a virtual enterprise.

Emax Nordic is the first step towards future entrepreneurship!

Good Luck!

Orebro 7th August 2008

 Jan Eriksson, CEO STARTcentrum Örebro region AB

Danish Challenge Award 2008

Vinder af Titan-simuleringspil:

3 års medlemskab af

yead
netværk med muligheder

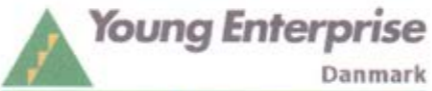

Young Enterprise Alumni Group Denmark, YEAD, blev stiftet i 2003 af fire tidligere deltagere i Young Enterprise.

YEAD er med til at sikre at de kontakter, som er opstået på baggrund af deltagelsen i Young Enterprise, bliver vedligeholdt og udbygget. Formålet er at skabe et netværk blandt de tidligere YE-deltagere som kan gavne dem senere i deres karriere, samt at rådgive og vejlede YE's aktuelle deltagere. YEAD tilbyder events om erhvervsrelaterede emner som lederskab, innovation og networking.

Ved vores events er socialt samvær i højsædet, som desuden giver rig mulighed for at komme i kontakt med andre medlemmer. Der vil både blive tale om nationale og internationale (primært europæiske) events som planlægges og gennemføres af YEAD, andre europæiske YE-alumne grupper eller vores samarbejdspartnere i Danmark.

YEAD arbejder på at opnå endnu stærkere og tættere relationer med de udenlandske YE alumne grupper, som eksisterer i Europa samt resten af verden. Derved får vi et større netværk, hvilket giver dig som medlem rig mulighed for at få international erfaring med ledelse, projektarbejde, tværkulturel kommunikation, organisationsudvikling mv.

Danish Challenge Award

Sommerskolen blev afholdt første gang på Vejstrup Ungdomsskole.

Selvstændighedsfonden - Young Enterprise afholdte i perioden 1. – 4. juli den første sommerskole i eget regi. Deltagerne skulle - foruden at høre en række foredrag og nyde de sociale aktiviteter - konkurrere om at drive den bedste virtuelle virksomhed i simuleringsspillet Titan.

Vinderne blev Mads Schou Jensen og Peter Ravn Jensen.

Danish Challenge Award afholdes igen i 2009 – hold øje med hjemmesiden.

PROJEKTOPGAVE
januar 2004 - Udtalelser og karakterer.
'Udvikling'

Navn
Mads Schou Jensen
Cpr.nr.
160988-2413

Projekt emne
Flyets udvikling

Det faglige indhold – Fremlæggelsen

Mads beskrev udviklingen fra Leonardo Da Vinci's teorier, over ballonflyvning og brødrene Wright til nutidens maskiner.

Ved hjælp af en konstrueret model og et svævefly af flamingo forklarede Mads på udmærket vis principperne bag aerodynamik og et flys bevægemuligheder, hvorefter han beskrev forskellen på, hvordan disse forhold kunne udnyttes på forskellig vis af propelmotoren og jetmotoren.

Derudover beskrev Mads de to verdenskriges indvirkning på flyenes udvikling. Sluttelig forklarede Mads på udmærket vis, hvad det vil sige at gennembryde lydturen. Under hele sin fremlæggelse illustrerede Mads med plancher til OHP.

Det faglige høje niveau, samt en veldisponeret fremlæggelse, vidner om en solid arbejdsindsats.

Frelæggelsen bar dog bræg af, at Mads var noget afhængig af sine notater.

Produkt

Model af svævefly, af flamingo, samt OHP.

Samlet karakter

10

Elevudtalelse

Mads Schou Jensen, cpr. 160988-2413

Mads er en meget positiv elev, som i sit skoleforløb har arbejdet godt med et tilfredsstillende fagligt og socialt udbytte. Han fordyber sig godt i nye emner og indgår ubesværet i det faglige og sociale fællesskab i gruppen og i klassen. Han besidder et vågent, ofte finurligt og imødekommende væsen, der gør ham respekteret og vellidt blandt kammerater og lærere.

Mads gives hermed de varmeste ønsker for fremtiden.

Description

We welcome to the Web Developer Bootcamp. The **only course you need to learn web development**. There are a lot of options for online developer training, but this course is without a doubt the most comprehensive and effective on the market. Here's why:

- This is the only online course taught by a professional bootcamps instructor.
- 90% of my bootcamp students go on to get full-time developer jobs. Most of them are complete beginners when I start working with them.
- The previous 2 bootcamp programs that I taught cost \$14,000 and \$21,000. This course is just as comprehensive but with brand new content for a fraction of the price.
- Everything's clear & up to date and relevant to today's developer industry. No PHP or other dated technologies. **This course does not sell any courses.**
- This is the only complete beginner full stack developer course that covers React.
- We build 7+ projects, including a **complete production application** called **ReactCamp**. No other course teaches you through the creation of such a substantial application.

Instructor

Colt Steele

Developer and Bootcamp Instructor

Hi I'm Colt. I'm a web developer with a serious love for building. I've spent the last 7+ years teaching people to program at 2 different intensive bootcamps where the **hundreds of people become web developers** and change their lives. My graduates work at companies like Google, Salesforce, and Spotify.

More recently I led Studentship's 10+ week intensive program as lead instructor and Curriculum Director. After graduating my class, **half of my students went on to receive full-time developer roles**. I now work at **University of a Senior Course Developer** on the web development team where I get to teach thousands of students daily.

I've spent years figuring out the "formula" to turn someone into a developer. I've distilled all my expertise into this course, the **entire equivalent of my 10+ years programming knowledge**. It's really exciting to finally share it with you. I'm confident to say that it's without a doubt the most comprehensive course on the market.

Join me on this study adventure!

COURSE UPDATED - 30 New Lectures!

Added two brand new sections covering **AngularJS** and **WordPress** Plugin Development.

Are you looking for an all-in-one design, web development and career building course that takes you step-by-step through all of the skills you need to start a working professional?

Are you a programmer looking to improve your design skills, or your designer colleagues can stop making fun of your full design? Or **maybe you're a designer looking to learn how to code**, so your programmer colleagues can stop laughing at your code writing attempts?

Have you wanted hours of your time or hourly teaching terrible video tutorials that make you feel stupid at your desk?

Stop wasting your time & money! This is the ultimate, most comprehensive, 4-in-2 web design, development and career building course on the market. I promise you'll purchase due to its trust.

Check this out!

Instructors

Brad Hussey

Senior Software Engineer @ Code College

A highly skilled professional, Brad Hussey is a passionate and experienced front-end web designer, developer, blogger and digital entrepreneur. Having worked for the past 10+ years in Toronto, Canada, Brad made the leap to the West Coast (Vancouver, Canada) to educate and inspire others with his necessary skills to become a specialist in his trade or solving problems on the web, making design solutions, and opening up new doors.

Brad's determination and love for what he does has landed him in some pretty interesting places with some cool people. He's had the privilege of working with, and providing solutions for, numerous businesses, big & small, across the Americas.

Brad teaches custom websites, and provides design solutions for a wide array of clients in his company's English-speaking markets. He regularly blogs about business income, being your own boss, and provides premium quality web design lessons and courses for tens of thousands of aspiring people looking to master the web.

100,000+ Students Don't Lie!

Join Brad and adventure into the world of web design, web development, and opening up code. You won't regret it!

What are people saying about Brad?

"Brad is the BEST coding instructor on the planet. Brad has a passion for teaching and he does it with joy. He plans to turn this into a course and makes you that it's just for him having your first coding lesson is like with you - only this time, you are learning valuable skills, not the type of guy who is passionate about transforming people into things like robots. We'll see after the course, we will work you to succeed. Thank you, Brad!"

— **Clara, Brad's student**

"...This class was well-structured, but-paced, easy to follow, and just fun enough to keep you checking in your learning on days of code. The class is a course from the instructor, whether there's questions or it's right there with a single question or a regular suggestion to keep you going along with the course work."

— **Andrew, Brad's student**

"...Brad's amazing and I'm really glad that he's the best teacher of all the courses I have seen on Udemy and helping in pushing me in the future. Thank Brad!"

— **Brad's student**

"...Brad is an excellent instructor, a great guy to learn and experience knowledge of the internet!"

— **Brad's student**

Instructors

Cole Mercer

Senior Product Manager @ SoundCloud | Ex-Amazon, Gen. Assembly

Hey there! I'm a Senior Product Manager at SoundCloud where I work on feature engineering for over 1.5 million monthly users across web, iOS, and Android platforms.

I'm also a former General Assembly Product Management instructor where I taught courses in person to students in Manhattan. I'm an online teacher because I loved my experience at GA and really enjoy teaching others about things I've learned.

I have consulted for various tech companies, and while in NYC, was also a Product Manager at Amazon - a well-focused team building brand where I worked with mobile engineers that generated millions of dollars in annual revenue through millions of customers.

Involved in my knowledge is a lot of experience and a fast product management experience. I had an early product manager at Amazon, Amazon, a startup, and a fast-paced emerging marketing platform in which was acquired in 2014.

Much earlier in my career I spent over a year as a PM with an investor-funded startup in Austin, TX focusing on allowing teachers to easily manage classrooms where we had over 30,000 users. I moved to that position from an initial role as a web engineer.

My career in Product Management started after graduating from Boston College and becoming a technology consultant to several companies across the US for over 2 years. As a result, you'll be able to gain enough to have experience in product management that spans several industries and development modes.

Evan Kimbrell

Founder of Sparkbox | Ex-AT&T | Ex-Startup Founder

Hi, I'm Evan Kimbrell. Thanks for checking out my course!

Experienced, I'm the founder, Director of Sparkbox, a digital based full service digital agency based out of San Francisco. Over the last 4 years, I've overseen the development and launch of over 100 web and mobile apps. Clients range from 1-9 digit team startups bootstrapping their initial idea, to multi-billion dollar Fortune 100 for that matter, like's Sporting Goods, & GM.

Previously at Sparkbox, I worked as a PM for a brand new firm called joint Capital, based out of L.A. I spearheaded the firm expansion into San Diego and San Francisco with both equity and debt.

Previously working for joint, in the long long ago, I was a co-founder for a subscription software startup called Sparkbox that raised a lot of money, and then operations were up on the last day. Before it exploded like the Death Star, I went through 3 tech incubators to get to work with TechStars, Executive Labs, MassChallenge, Boston Venture Program, and Sparkbox.

Hi, I'm Evan Kimbrell. Thanks for checking out my course!

My career in Product Management started after graduating from Boston College and becoming a technology consultant to several companies across the US for over 2 years. Description

Are your web conversion rates low? Do you know whether your web site is effective at moving your prospect to users get "lead" and aren't able to complete the tasks they want to do on your website? How can you make your app or website?

It's becoming easier and easier to create web sites and mobile apps - but harder and harder to measure the effectiveness of these applications. From Natoli's well-designed course User Experience Design Fundamentals you'll learn how to create effective web sites, mobile sites and mobile applications that encourage conversions and have users learning from.

It's not enough to simply have a web presence - you must have a web presence that's effective to be successful in the digital space you will gain through the critical elements of user experience - **strategy, scope, structure, skeleton and surface**. As you learn you'll be able to apply the knowledge you learn to dynamic web websites - and use for your own work as a designer or developer.

Instructor

Joe Natoli

13 year UX & Usability Veteran, Apps Sites & Software

What I can promise you

I can never anything less than completely featured when someone registers for one of my classes or workshops. I know your time is valuable, so I absolutely guarantee you will get proven methods and actionable advice that you can implement as soon as you get back to your desk.

No fluff, no magic, no dog and pony show. Just things that provide measurable value when done right.

How I can help

It's the first question everybody asks. **What can you do for me, Joe?**

Well, essentially I can help you create differentiation and your growth, by making sure your designs and products deliver the right experience, whether it's a site or an app or an enterprise system. I can teach you how to find and remove usability obstacles to improve with existing programs from free. 20+ years of industry experience. And by the time the class you'll be positioned to deliver measurable user experiences that inspire loyal customers and increase user adoption.

What I do

I teach designers and developers to integrate best practices in User Experience (UX), Customer Experience (CX) and Human Factors Engineering (HFE) **into the things they're already doing**. I'm not interested in formal processes and procedures - I'm interested in helping you get results.

My first working with humans 100 companies to build strategies for taught the that all the miles of formal UX processes (being together) do not do it all. It's about making anything you more useful, usable or reliable.

There is no perfect scenario. Real knowledge often fails where the rubber hits the road. And if you're being hired to design that real solution, you know that already.

To succeed, it's looking to design the things you're already doing, make minute adjustments that don't force you into unfamiliar territory. It's more about the mindset you have than the actual you take, to be aware of clients, the tactical stuff stays the same. What you think about before you act, however, changes, not what that happens, that things you create and build and can deliver more value to the people who use them... and therefore more value back to you or your client.

Who I've done it for

I've been privileged to serve a number of clients who have realized substantial business benefits from this strategic approach to user experience design. With industry leaders like **Wendy's, Chamberlain, Cade's Hair, John Deere, Lamps Plus, Intel, GE, Johnson** and many others. You know, I've been fortunate to see measurable success come from real and true business practice in UX and design.

I've also worked with several government clients, from state and local governments in VA and MD to federal agencies such as **NASA, NSF** and the **Department of Homeland Security**.

About this course

UX based on real world examples, gain practical UX skills you can use to start a UX career or improve your products.

By the numbers

Lectures: 92	1,310 students
Video: 9.5 hours	Language: English
Self-paced: All Levels	

Features

Lifetime access	Certificate of Completion
Available on iOS and Android	

Description

Here's what students have said:

"This course is the most valuable I've ever bought on Udemy!" - July 1

"Students course is AMAZING! I signed the first job offer!" - PHILIP L.

"Real course, which I found useful from previous projects of view. Not just some broad, abstract philosophical rambling about UX." - Marlene M.

"Great instructor who is able to deconstruct complex ideas and apply them to their own and students' context. I really recommend this course for UX practitioners of all levels." - Hubert

"After viewing Alessandro's course and completing the project, I got much more confident about entering the field of UX and my project ended up being one of the best projects in my portfolio. I used it during an interview to land my first interview!" - Alex B.

"The instructor's enthusiasm shines through in each step. I deep UX knowledge and real life experience. Couldn't wait to share this!"

Instructor

Brendan Bolton-Klinger

University Professor & UX Veteran Practitioner

Brendan Klinger has taught user experience (UX) and interaction design classes for over a decade at University of California, San Diego, where he's currently a faculty member. He's also worked at several startups, and was previously an Experience Lead at Google, where he specialized in the design of digital experiences, ranging from all mobile applications, to large transactional job content sites. When not being UX or teaching, he loves busy traveling outdoors and dogs.

How it works

Go blind to a meetup with your next fascinating Gubbie!

1 Be a Gubbie! It's free!

Enter your basic data and a recognizable picture of yourself, then select your languages and interests.

2 Hide and seek!

GO BLIND's background service assigns you a neutral icon.

3 Ready for a meetup?

Select the city where you'd like to meet another Gubbie and say when.

4 Mark the spot!

Head for the meetup location GO BLIND has chosen as most suitable.

5 Meet your Gubbie!

When you get near, you'll be shown the other Gubbie's name and photo. Say 'Hi' and you're all set.

6 Enjoy your meetup!

You're sure of a great welcome from our partner and an interesting time with your new Gubbie friend.

We'd love to hear how things went

Our Partners

We're starting small.

Our pilot phase is limited to Zürich, Switzerland. We are negotiating with a variety of partner enterprises – cafés and restaurants, museums and galleries, sports and adventure centers, etc. – as locations for our Gubbies to meet. And we're continually extending our list of partners.

In time, we will expand to other cities in Europe, the USA and finally the whole world.

App Design Proposal

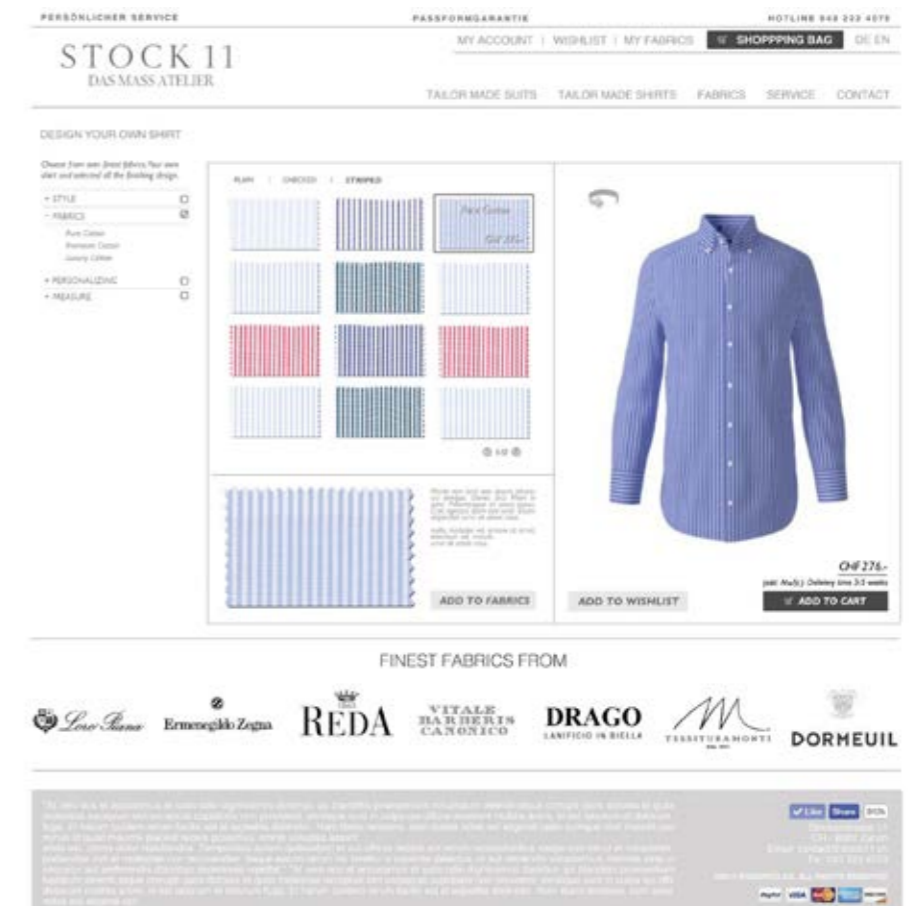

Goal of system: Go through all the different customising options on the right side menu, and get green check marks as you complete each step. Focus on making it an easy and straight forward system, with high amount of visual details and solid consistency through the whole system experience, to avoid any confusion or misunderstanding from user. Our aim is to be obvious and clear since we have many clients above 50 that has not grown up with computers and therefore have a high tendency get lost in systems with many levels. The system should support the physical service in the shop, for clients that does not have time to come by the shop every time they need a new shirt.

Lokal samling om ny stor vindmølle

Med en rotordiameter på 112 meter er Vestas V-112 en vindmølle, der kan generere strømme af naboklager, længe inden den første kilowatt-time er kommet ud af kraftkarlen. Men i vestjyske Vildbjerg er det lykkedes at skabe opbakning til en klynge på tre af slagsen. Opskriften er lokalt ejerskab med 90 interessenter i den ene af vindmøllerne.

Af Per Henrik Hansen

Der var tæt på at være fuldt hus i Vildbjerg Idræts- og Kulturcenter den aften i marts 2012, da vindmøllelauget Vildbjerg Vindkraft I/S blev stiftet. Forinden havde 90 lokale borgere – landmænd og byboere, unge og gamle – købt anpart i laugets vindmølle, den ene af tre Vestas V-112 vindmøller som sidst på året blev rejst umiddelbart uden for den lille by Vildbjerg mellem Herning og Holstebro.

"Det er den største vindmølletype, der må sættes op med kommunal tilladelse, uden staten skal blandes ind i det", fortæller Kenneth Lund, som er formand for det nystiftede vindmøllelaug. Den lokale opbakning viste sig også, da op mod 250 gæster tre dage før juleaften trodsede en bidende kold vind for at deltage i vindmøllens indvielse.

Stegt flæsk og persillesovs

Kenneth Lund håber på tilsvarende opbakning, når Vildbjerg Vindkraft I/S i år indkalder til sin første ordinære generalforsamling på det lokale hotel. "Det bliver nok noget med stegt flæsk og persillesovs. Der må gerne være et socialt aspekt i det", tilføjer han.

Ifølge Kenneth Lund har der været forbløffende lidt modstand mod byens tre nye høje naboer. "Til det første borgermøde om planerne var der da nogle, der protesterede. Men i forhold til, at vindmøllerne står mindre end en kilometer fra byen, har det været meget lidt", siger han.

Med en estimeret årsproduktion på næsten 10 millioner kWh fordelt i anpart af 1000 kWh er ejerskabet spredt ud på 9877 anpart af 3.200 kr. i anskaffelsespris. 40 procent ejes af tre lodsejere, på hvis jord vindmøllelaugets og to andre tilsvarende privatejede vindmøller er rejst. De resterende 60 procent er efter reglerne om køberet solgt til 90 beboere inden for en radius af 4,5 km fra de tre vindmøller.

Administration hos Vindenergi Danmark

Da det er vidt forskelligt, hvor mange anpart hver interessent ejer, er der en hel del administrativt arbejde forbundet med udbetaling af overskud og så videre. Så meget at det vil være uoverskueligt at klare det med kassererens frivillige arbejdskraft ved et køkkenbord. I stedet har Vildbjerg Vindkraft I/S som det allerførste laug indgået en aftale med Vindenergi Danmark om, at sidstnævnte tager sig af administrationen. "Vi sørger selv for at betale de regninger, der kommer, men ellers tager Vindenergi Danmark sig af det hele; bogføring, udlodning af overskud, moms og årsregnskab", fortæller Kenneth Lund. "De spurgte, om vi ville være med i et pilotprojekt, hvor de tager sig af det administrative. Og da vi i forvejen havde besluttet, at Vindenergi Danmark skal stå for salg af strømmen, sagde vi ja tak. Det ser også ud til, at de kan gøre det til en fornuftig pris", forklarer han.

"Og hvis Vindenergi Danmark får en avance ud af det, så kommer pengene jo bare tilbage til os andelshavere igen", tilføjer han med et smil.

Vindenergi Danmark
Markedsopdatering

Sol

Weekendrekord: Tyskland producerede solenergi som 20 atomkraftværker
 I forrige weekend nåede de tyske solkraftværker ny vinderekord, da de i flere timer producerede 22 gigawatt - et niveau til op mod halvdelen af landets energiforbrug.
10. maj 2012 | 46

DANMARKS VEJ MOD SOLCELLEMÅLSÆTNING
 I solcelteaftalen fra sidste år er målbæringen, at Danmark skal nå på én måned solcelteeffekt på 800.000 kW i 2020. Det betyder, at vi skal opbylle ca. 400.000 kW på 18v år.

Weekendrekord: Tyskland producerede solenergi som 20 atomkraftværker

- Er ikke med i forbrugsprognoserne.
- Skal modelleres.
- Hvor forudsigelig er solen?
- Behov for nedreguleringer.
- Kan reducere priserne midt på dagen.

Bright Sprout

Bright Sprout is a wooden fixture designed to hide the light bulb sockets on energy saving bulbs. With its soft, Nordic design it turns an important everyday function into an aesthetic experience.

Bright Sprout must be combined with a cord and a light bulb at your wish and is designed to fit most incandescent and energy saving bulbs.

The product arrives in a special designed, reusable packaging. Inside you find Bright Sprout enclosed by *wood* shavings. Ready for picking and mounting as soon as you get home.

Weather Plaids

Nordic Tales welcomes late summer nights by introducing Weather Plaids.

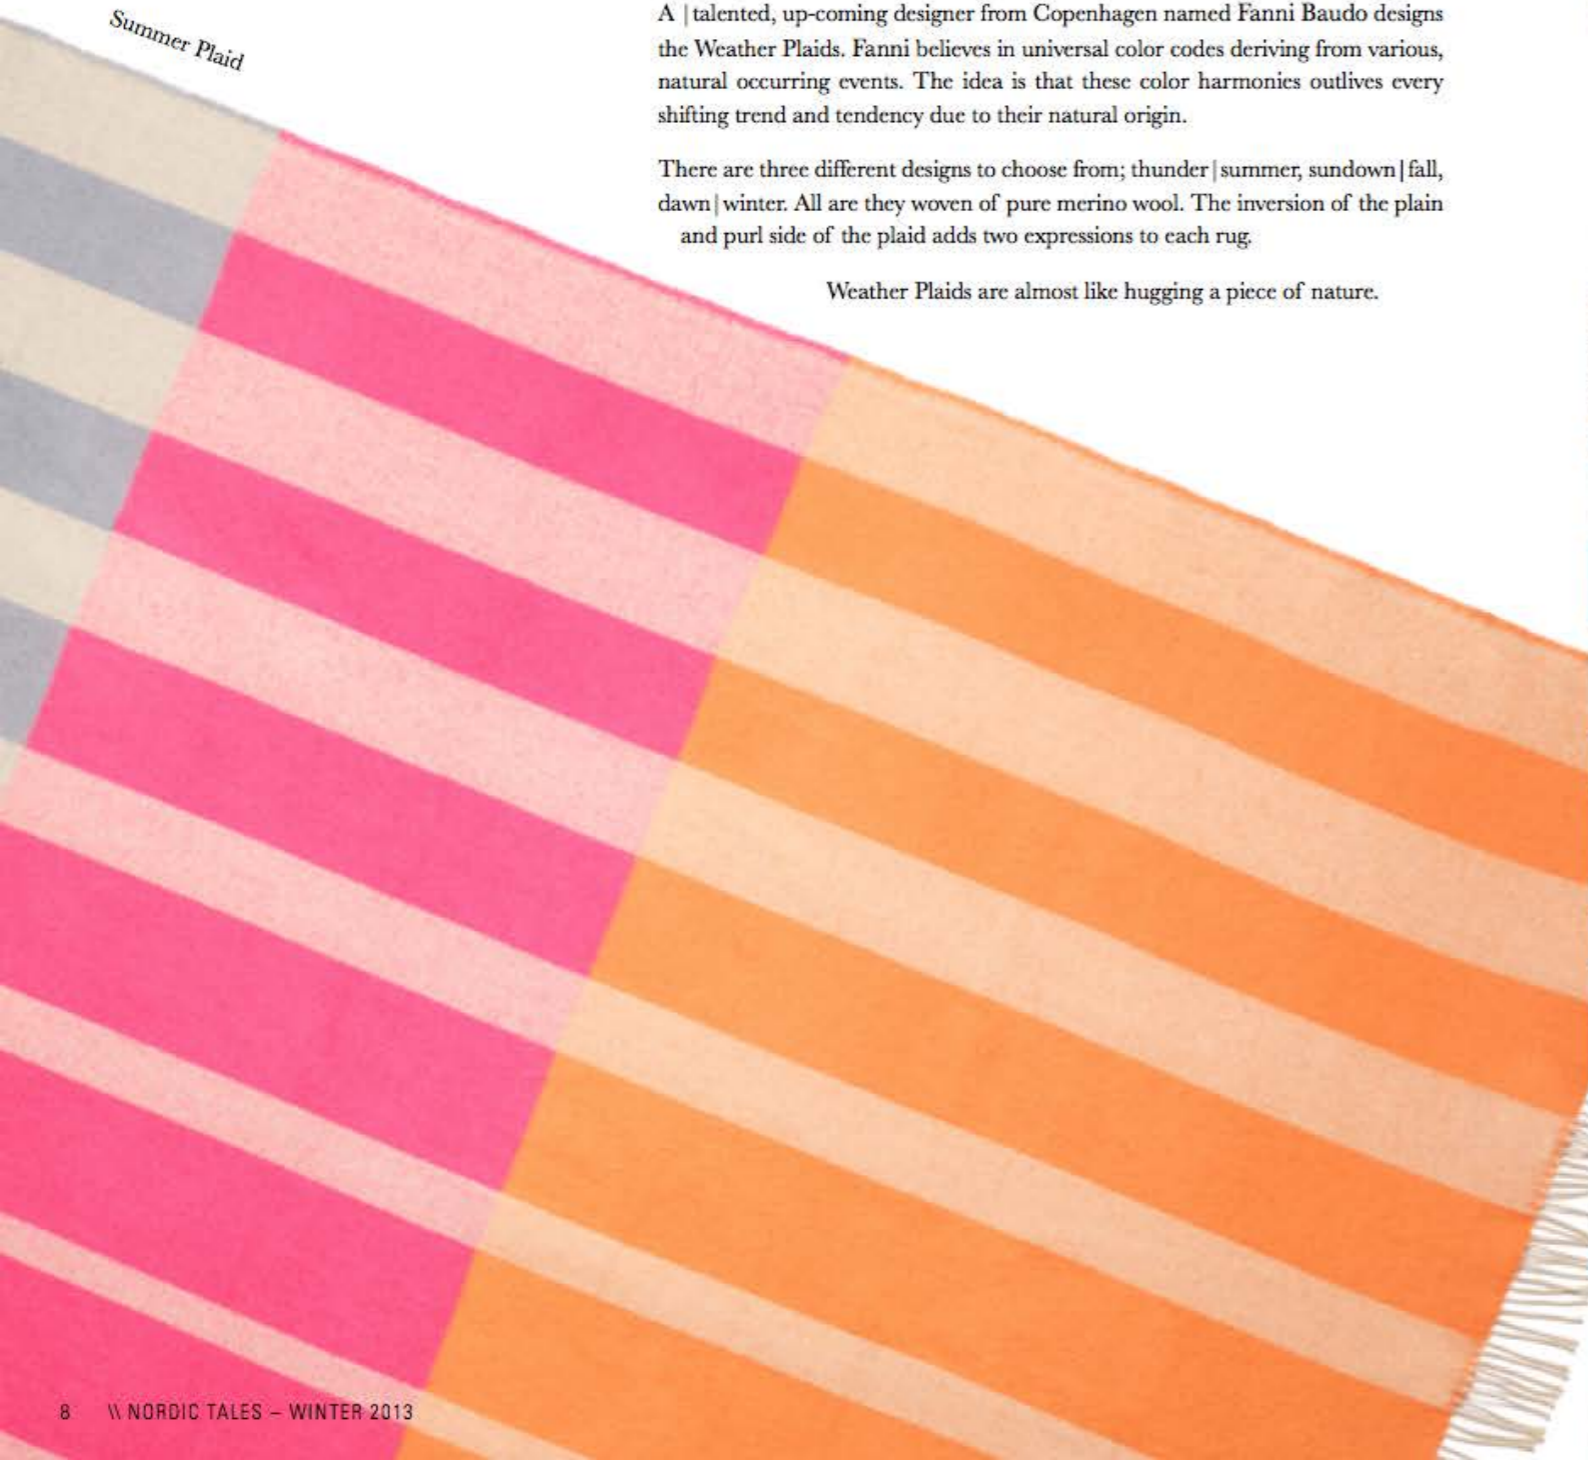

Inspired by nature the color schemes of the rugs vary from dark blue shades to warm pink and yellow tones. The color combination of each rug is reminiscent of different natural phenomena and seasons.

A talented, up-coming designer from Copenhagen named Fanni Baudo designs the Weather Plaids. Fanni believes in universal color codes deriving from various, natural occurring events. The idea is that these color harmonies outlives every shifting trend and tendency due to their natural origin.

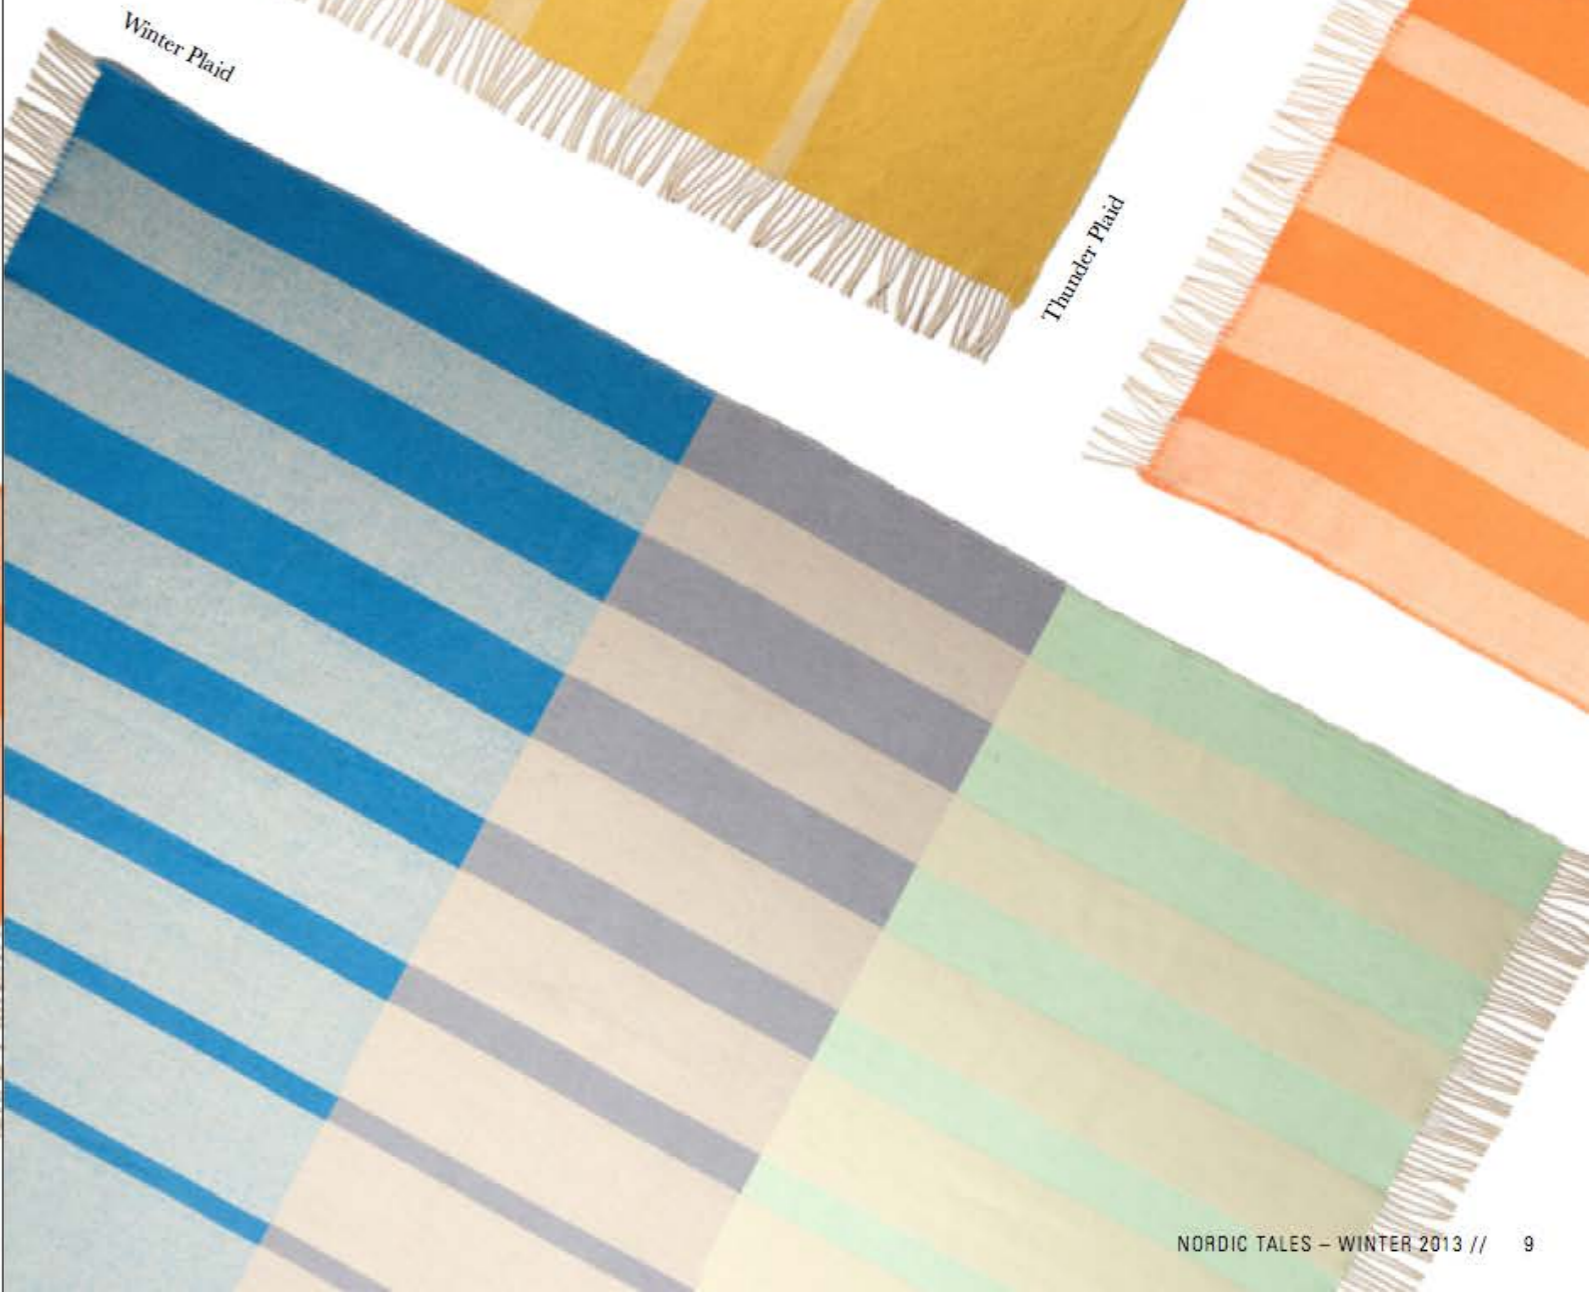

There are three different designs to choose from; thunder | summer, sundown | fall, dawn | winter. All are they woven of pure merino wool. The inversion of the plain and purl side of the plaid adds two expressions to each rug.

Weather Plaids are almost like hugging a piece of nature.

Poet

Poet is the story of exclusive furniture. It is a desk whereby thoughts and creativity can unfold and generate new ideas and projects. The table is an ode to classical Scandinavian handcrafted furniture in which quality in materials and detail is highly prioritized.

But Poet is more than just a desk. It is a tool equal to your computer and your coffee mug. Poet, besides from the primary desktop, has two built-in shelves and a drawer where you can store your laptop, notes and pens. This way, your desk always appears tidy and clean.

Poet is made by FSC-certified oak veneer and is handcrafted in Denmark by Nordic Tales' own joiners. Legs and desktop are *wedged* together and so eliminates the need for superfluous materials and components.
